

# Presentation about Food/ Eating in a Particular Country

Tell us about the family

- \* What do they eat, proportions of various sorts of food
- \* What they eat in a typical week
- \* Their favorite recipe

Tell us what you think of the way this family eats

- \* Can you imagine eating like they do?
- \* If you stayed with them on a home stay, do you think you'd have any trouble?
- \* If a member of their family stayed with your family, what would you feed them?

Introduce their country and some facts about it

- \* Demographics
- \* Percentage of land used for growing food
- \* Percentage of people who don't have enough food to eat etc.

Do a bit of additional research (using at least 3 other sources) to find out about food culture in this country. Present those research results to us and tell us whether you thought the way this family ate was typical of the way people in that country eat. Be prepared to tell us the exact sources that you used. It's not good enough just to say "I found it using Google."

Do a Google image search using the name of your assigned country and "food" or "farmer" or "market" and see what comes up. Analyze the results and tell us about patterns, similarities and differences in the images that appeared. Compare it to search results related to Japanese food, farmers, or markets.
